Organisation History

Since 2019

Established in 2019, Prayas Global Foundation (RNPO) began its transformative journey with a clear vision to create a sustainable and harmonious world. Rooted in the arid landscapes of Jodhpur, Rajasthan, our foundation was built on the core belief that true social change begins at the grassroots level. Over the past few years, we have dedicated ourselves to comprehensive environmental conservation initiatives, with a special focus on afforestation, desert ecosystem restoration, education, animal and bird welfare, women's empowerment and plastic-free campaigns. By combining traditional wisdom with specialized horticultural methods—such as organic fertilizers and continuous irrigation — we have successfully worked towards transforming barren lands into thriving green spaces. Our milestone initiatives, like the large-scale plantation drives under 'Project Prakriti and Go Green', stand as a testament to our unwavering commitment to restoring nature's balance.

Beyond environmental restoration, our mission deeply encompasses wildlife protection and community empowerment. We have actively spearheaded animal health camps, rescue initiatives and launched heartfelt campaigns like our sparrow conservation drives to protect voiceless beings. Simultaneously, we believe in uplifting humanity through targeted skill development. By organizing kitchen gardening workshops and establishing tailoring training centers for women, we strive to foster self-reliance and economic independence. Today, Prayas Global Foundation stands as a beacon of hope, working relentlessly to bridge the gap between ecological preservation and community welfare, ensuring a greener, kinder tomorrow for all.
